Wall Fix is a practical wall fixing system that allows the positioning of mirrors and accessories with a flexible and space-saving method.

The furnishings can be placed, moved and repositioned according to the needs of the salon by exploiting the length of the practical rails, fixed to the wall.

# Wall Fix

The Steel Fix system consists of a small number of components capable of giving life to infinite solutions. The Frame and the Crossbar are the load-bearing elements on which this line of mirrors is based, customizable and modular thanks to the different slots on the frame and the wide range of compatible accessories. With this type of frame it is possible to create wall-mounted or self-supporting solutions.
