

Classic Autumn? Colorful Winter!

Embrace the cold season with warm colors

We thank Bassam Concept Salon from Bukarest for the use of the image

The logo consists of a stylized square icon with a smaller square inside, followed by the word "Maletti" in a serif font, and another stylized square icon.

Experience to believe...

Visit our showroom in Scandiano and experience the quality of our products, the refinement of our collections, and the elegance of our design.

Word of...  **Maletti** 

THE STEAM SYSTEM

ANALYSIS AND BENEFITS

Analysis and Studies in collaboration with the Department of Medicine and Surgery of Perugia.

All Maletti wash units can be used with the steam system.

TREATMENTS FOR HAIR AND SCALP

BEFORE THE TREATMENT

Untreated hair appears dehydrated with unidentified deposited material between the cuticles with irregular and jagged shapes.

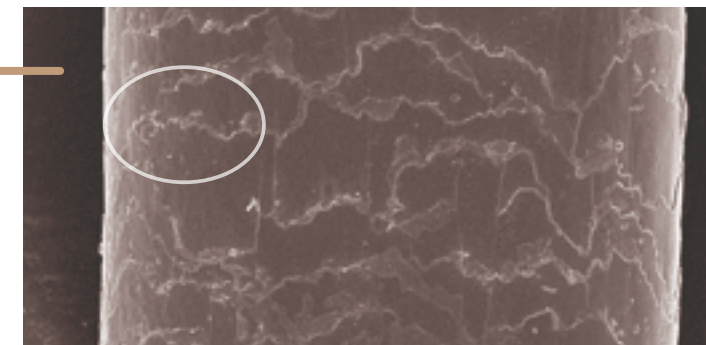

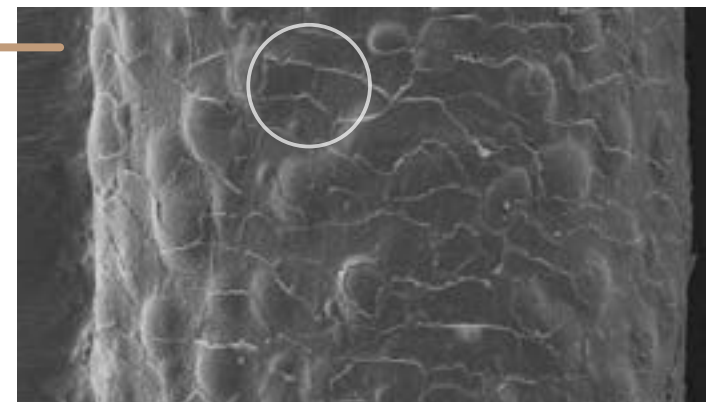

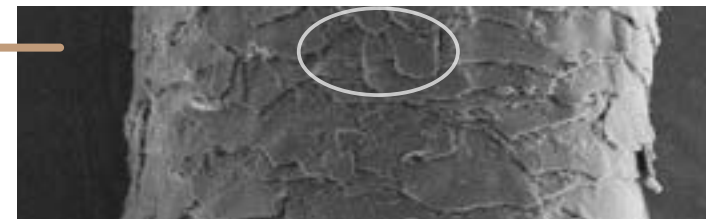

APPLICATION OF STEAM

The use of steam on the hair and scalp opens the cuticles, which close again at the end of the treatment and trap water molecules, boosting hydration. In addition, the steam treatment also improves the hair morphology, which appears soft, smooth and shiny .

APPLICATION OF STEAM + PRODUCT

In hair pretreated with steam and then with specific products, there is a deposition and absorption of the product between the cuticles, which otherwise would be poorly noticeable..

SCANNING ELECTRON MICROSCOPE STUDY

CONCLUSION

THE ADVANTAGES OF STEAM SYSTEM

HYDRATION

The steam system treatment provides **greater hydration** for both hair and scalp.

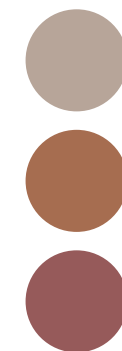

LIGHTNESS AND SHINE

The steam application improves the hair morphology making it **soft, smooth, and shiny**.

BETTER ABSORPTION

Thanks to the Steam System and the increased absorption of the applied product , the hair is **deeply nourished**.
