Rue Montenapoleone

collection by Elisa Giovannoni

SCAN ME

The latest new entry, created for Maletti by the famous designer Elisa Giovannoni.

Inspired by 1950s design, "Rue Montenapoleone" is the line in noble and recyclable materials such as glass and metal.

The colours, enriched with a few gold details, are designed to the finest detail to make any salon a trendy, elegant space.

- 1. **Eufemia** | styling chair
- 2. **Rue Montenapoleone Sole Centrale 2P** | technical table
- 3. **Gondola** | wash unit
- 4. **Rue Montenapoleone Trolley** | trolley
- 5. **Rue Montenapoleone Fiore Centrale 2P** | styling unit

- 6. **Mimì** | styling chair
- 7. **Rue Montenapoleone Fiore Centrale 4P** | technical table
- 8. **Sarah Design By Sarah Lavoine** | styling chair

SCAN ME

THE FUNDAMENTAL PHASES OF THE STEAM SYSTEM TREATMENT

An appointment with the hairdresser means devoting a couple of hours to ourselves, for a relaxing break where we will see ourselves more beautiful. In the last few years, the hairdressing salon has started to be considered an authentic wellness centre, where we can relax, with specific services for hair and scalp that improve health and consequently beauty.

From this vision, which associates cosmetic care with health treatments, comes the **Eden Plus system**, an authentic hair and scalp spa. The Eden Plus wash unit with steam treatment creates a sauna with hot steam for the head, bringing all the benefits of hot steam to the hair and scalp.

With Eden Plus, clients can relax in a reclining massage chair with RGB LED lighting in yellow, orange, red, purple, green and blue.

It is also possible to continue by exposing the hair to cold steam spray. Here the micro-particles penetrate deep-down in the hair shaft, hydrating it and helping to hold the hair style longer. The hot steam treatment can be done with or without specific cosmetic products, chosen to suit the client's needs. The effect of the different active substances and their penetration into the hair and scalp is enhanced by both the massage and the hot steam.

ECO-SUSTAINABLE MATERIALS FOR THE SALON THAT TAKES ITS CLIENTS AND THE ENVIRONMENT TO HEART

Maletti has always stood out for the attention to the materials used, cooperating with top research centres. Great importance is also paid to the colours chosen to match the market trends. If you are planning a new salon, these pages offer plenty of ideas to make it sustainable.

Starting from sanitisable ceramics, FSC woods, "eco-skins" with citrus aromas, recycled and recyclable metals and glass, fabrics made from plastic waste. We offer a simple guide for combining colours and materials to make your salon truly ECO.

BRING ECOLOGY INTO YOUR SALON

If you have decided to furnish your new salon with our ecological line, here you can find inspiration for mixing and matching our materials made with low environmental impact. Without

forgetting the quality that Maletti guarantees through our direct control of the production processes.
